Pure photography or straight photography refers to photography that attempts to depict a scene or subject in sharp focus and detail, in accordance with the qualities that distinguish photography from other visual media, particularly painting. Originating as early as 1904, the term was used by critic Sadakichi Hartmann in the magazine Camera Work, and later promoted by its editor, Alfred ...

Windows as a source of light for portraits have been used for decades before artificial sources of light were discovered. According to Arthur Hammond, amateur and professional photographers need only two things to

light a portrait: a window and a reflector. Although window light limits options in portrait photography compared to artificial lights it gives ample room for experimentation for ...
